President’s Speech
Beni-Suef University

BENI-SUEF UNIVERSITY is now witnessing unprecedented progress and development. The number of its colleges has been increased to twenty two colleges, with the intention to reach thirty colleges according to the vision of the University, most of which are unique in specializations. The University has quickly turned into a research innovative university whose main concern is the acquisition of knowledge, and providing electronic technology for the society.

This manual is the first comprehensive guide to be published in two languages (Arabic and English). It is not only intended to show the past and present of the University, but also to give a clear idea about its philosophy and vision according to its plan and strategy. In more accurate words, it is considered a road-map as well as a general guide to its developments.

Finally, the administration of the University hopes this guide to assist the readers in describing its achievements in the light of its comprehensive vision, message, and objectives.

President of the University
Prof. Dr.
Amin E. Lotfy

Be proud ... You are in B.S.U
Welcome in Beni-Suef University

Beni-Suef University is located in the Governorate of Beni-Suef which is one of the Governorates of North Upper Egypt, bordered from the north by the Governorate of El-Jezea, from the south by the Governorate of el-Minia, the Red Sea Governorate from the east, the Governorate of Suez from the eastern north, and el-Fayum from the west.

- The Capital is the City of Beni-Suef
- National Day: 15 March.
- Area 10954 km².
- Population 2.592755 according to the census of 2012.

The Governorate consists of 7 administrative centers, 7 towns and 40 local village-units, and 225 suroordinate villages.

The Governorate possesses the second biggest pyramid in the world, built by King Hony the last King of the Third Dynasty, to be completed by his son King Sneferu, the first King of the Fourth Dynasty, and the father of King Cheops, builder of the Great Pyramid of Giza.

The Governorate excels in the production of cotton and wheat, it is also characterized by the production of aromatic and medicinal plants.

The University also possesses an office in the capital, Cairo one of the biggest cities in the world.

Vision, mission and objectives the university: OVERVIEW

Beni-Suef University is an Egyptian government university that was established in 1981 as a branch of Cairo University in the city of Beni-Suef until its independence in 2005 according to the Presidential Decree number 84 of 2005.

FACULTIES OF THE UNIVERSITY
The University has twenty-two faculties which are:
The Faculty of Medicine, Faculty of Pharmacy, Faculty of Veterinary Medicine, Faculty of Dentistry, Faculty of Physiotherapy, Faculty of Science, Faculty of Nursing, Faculty of Computer Sciences and Information, Faculty of Graduate Studies and Advanced Sciences, Faculty of Engineering, Faculty of Mass Communication, Faculty of Economics and Government, Faculty of Commerce, Faculty of Law, Faculty of Arts, Faculty of Education, Faculty of Physical Education, Faculty of Industrial Education, Faculty of Applied Arts.
Vision

Beni-Suef University is keen to be a pioneering and distinguished university in the fields of education, research, social activity, knowledge, and electronics, on the local, regional, and international levels.

Message

Beni-Suef University aims - in a world of knowledge economy - to be a distinguished university. It also aims at occupying an advanced position in the international classification. With this objective in mind, the University is working hard in developing education, remodeling regulations, programs and curricula according to the international standards of quality and distinction so as to contribute in preparing a wealth of human resources: graduates who are highly qualified with knowledge, skills, technology, and ethics so as to fulfill the variable needs of the local, regional, and international labor market.

The University also concentrates on offering research projects and scientific, academic, practical and innovative means, related with industry and the environmental services. This would enable the university to diagnose problems, offer solutions, and participate effectively in carrying out the plans of different spheres of development and supporting the national economy. In this context, it aims at building and preparing innovative researchers, able to offer internationally publishable researches, and create an encouraging education, scientific research, innovation and creation. The University also is keen to be a community university, aiming first and last at directing its educational and research services to the service of the community, developing the environment. In this context, the university aims at coordination, and cooperation with the local, regional and international institutions.

In addition to this, the University seeks to be a cultural university, participating in increasing the peoples’ awareness of the environment in which they live, both locally and internationally, with the purpose increasing its cultural and enlightening activities through attending the international conferences, symposiums and workshops, and sticking to the values and morals of work. In addition, the University seeks to work in developing the administrative, educational, and research systems.
ENDS AND STRATEGIC OBJECTIVES:

1- Achieving distinction in education and learning, and preparing efficient graduates who possess the ability to compete in the labor market.
2- Promoting scientific research, and preparing researchers who are able to produce creative researches related to industry and the national issues.
3- Activating the service role in the University to fulfill the needs of the society and labor market.
4- Raising the level of the institutional performance, and developing the human resources in the university.
5- Activating the University role in encouraging the participating in the knowledge society.
6- Promoting the position of the University in the local, regional and international classification.
7- Economic and financial planning to ensure the achievement of efficiency in resource administration.

THE ESSENTIAL VALUES OF THE UNIVERSITY

Beni-Suef University is governed by a set of values that includes the guiding rules, the behavioral framework that represents the identity and philosophy of the University, and its relations with the society. These rules are the most important foundations on which the University builds its way of life. The purpose of fostering these values is to promote the individual and institutional performance in the University in order to carry out the strategic objectives, its programs and initiatives. These values help the personnel, the faculty and the students to give hand in achieving the objectives of the University. The most important and distinguished values of the university are shown as follows:
The Essential Values Of The University

1. Re-enforcement of the individual’s self-respect, preserving his rights, and promoting the values of freedom, justice and equality.

2. Accuracy and Quality: meaning the accuracy of work, and commitment to continuous development through mixing skills with knowledge, practice with contemplation, and deduction with invention.

3. Working with the teamwork spirit: the University is committed to working in the spirit of the teamwork, to achieve its objectives, foster its institutional roles, and promoting the objectives of the common good. Everybody in the university should spend his interests, visions, his opinions for the interest of the effectiveness of the teamwork with the purpose to achieve the final common goals.

4. Originality and modernization: respect of the values, traditions, and heritage of the society, and - at the same time - to keep up with the scientific, technical, and cultural developments.

5. Distinction: where the student is the main focus of the University, where the university is committed to the most up-to-date educational and intellectual measures. The university respects her great ambitions towards distinctions according to the international measures.

6. Creation: the university is keen to spread the most appropriate environment for research, and encouraging creative ideas which may practically benefit in solving the problems, communicating with others to achieve welfare for the individual and the community.

Be proud ..... You are in B.S.U
The Essential Values Of The University

7- Justice: The university is committed to the principles of social justice, equality, and cultural diversity. The members of the university are committed to the highest degree of honesty, respect, and the ethics of work and scientific research.

8- Intellectual freedom: The University is committed to encouraging intellectual exploration, fostering the original academic values in all aspects of the university activity. The University is also keen to defend the rights of the staff members, students and personnel. They are all invited to express their opinions freely with the objectives of spreading knowledge and information. The University guarantees the intellectual freedom of expression for its members.

9- Communication: The University encourages any interaction with the society, to publish and discuss the results of the scientific researches, with the purpose of developing the society and supporting the environmental development.

10- Transparency and questioning: The University is essentially keen to be committed to document her achievements with transparency and honesty to offer her intellectual achievements on the society to gauge the importance of her participation in the international scientific achievements.

11- Continuing education: The University is committed to support education and learning inside the University’s community and outside it. It is also keen to promote the intellectual growth. The University considers that the staff members and personnel are her human capital.

12- Social responsibility: The University is committed to achieving the local and international partnerships which aim at building the society of knowledge, and supporting the transmission to the green economy through providing continuous education, training and cultural programs, highly qualified scientific research directed to serving the community, and achieving its ambitions.

- Architectural Structure
- Civil Engineering
Faculty of Pharmacy

Be proud ..... You are in B.S.U
Vision of The Faculty
The Faculty aims at being a distinguished Faculty on both the local and international level in the field of learning and scientific research related to various pharmaceutical sciences.

Message Of The Faculty
The Faculty is considered one of the higher education establishments looking forward to achieve distinction in learning, promoting scientific research in various pharmaceutical sciences, and developing pharmaceutical services offered to the community. The Faculty is keen to carry out this mission by applying the highest standard of local and international standards.

Objectives of The Faculty
1. Training students of the Faculty to be skillful in acquiring knowledge, skills, values necessary for strong competition in labor market.
2. Supporting students and staff with the required means to promote their levels of education and carrying out their research.
3. Fulfilling scientific researches that cope with the development in science and technology in the various pharmaceutical fields.
4. Co-operation with the various official bodies to promote the field of health, and improve the health levels of the community.
5. Co-operation with the local and international organizations of common concern.

Establishment:
The Faculty of Pharmacy was established at the academic year 1994/1995.

First Academic Degrees:
The Faculty grants the following degrees and diplomas:
1. Bachelor's Degree in Pharmaceutical Sciences.
4. The Doctorate Degree in Clinical Pharmacology.

Second - Diploma of Higher Studies in one of the branches indicated in the Internal Regulations:
The period of study to obtain a Bachelor's Degree in Pharmaceutical Sciences is five years, including a preparatory year.

For a student to obtain a Master's Degree in Pharmaceutical Sciences, he must be a holder of a bachelor's degree in Pharmaceutical Sciences from any of the Egyptian Universities, or an equivalent Degree from another scientific institute recognized by the University, and should pursue studies and researches for a period of at least two years, according to the provisions of the Internal Regulations.
Faculty Of Medicine
Vision of the faculty

The Faculty of Medicine adopts renewable institutional academic and clinical criteria so as to be capable of continuous improvement, so as to be qualified to obtain the institutional accreditation of its academic and clinical programs, and putting them in the ranks of accredited local, regional and universal level.

Message of the faculty

The Faculty of Medicine is an educational center of advanced research that provides the community with highly qualified physicians, trained in self-development, competent with the international students, it also provides its graduates Master's and Doctorate degrees in the fields of medicine, according to the system of credit hours and continuous medical educational.

Objectives of the faculty

1- Supporting and developing the departments of the Faculty, in addition to promoting the aptitudes of learners towards self-evaluation according to the required criteria of the National Authority for Accreditation and Quality Assurance.
2- Helping and supporting the process of quality assurance to be in line with international standards in order to ensure the overall global rating.
3- Confirmation of confidence at the local, regional and global level in the standard of the graudate of the Faculty of Medicine, through identifying of the outputs of the educational process and the efficiency and quality assurance of education and continuous development.
4- Co-operation on the regional and international levels with the equivalent faculties in all fields to develop education and academic research.
5- Continuous revision and modernization of the purposes and strategies, in a way that goes in line with the University requirements and the Governorate of Beni-Suef.
Establishment

The Faculty of Medicine was established in 1995, upon the Presidential Decree Number: 1995/23. The first year lectures were given at the faculty of medicine, Cairo University, till the completion of the works in Beni-Suef. Then, study started for the first and second year students in the faculty campus in Beni-Suef by the Academic year 1996/1997. The Supreme Council of the Egyptian Universities grant - upon the request of the Council of the Faculty of Medicine - the following scientific degrees and diplomas:

Academic degrees

1- Bachelor's Degree in Medicine and Surgery.
2- Master's Degree in one of the Branches of Clinical Specialization indicated in the internal regulations.
3- Master's Degree in Basic Medical Science, in one of the Branches of Specialization indicated in the internal regulations.
4- Doctor's Degree in Medicine or Surgery, in one of the Branches of Clinical Specialization indicated in the internal.

Faculty Of Nursing
**Vision of the faculty**

Facing the increasing challenge represented by world competition in the light of the new developments as globalization, GAT, private ownership, open worlds, speedy scientific revolutions, by preparing the graduate who is capable of dealing with the new developments in the fields of computers, biological sciences, modern health, genetic engineering human genome, technology of communication.

**Message of the faculty**

Preparing a highly qualified graduate, scientifically and professionally equipped with the latest scientific and technological ways, capable of providing nursing care, with the highest needed quality.

**Objectives of the faculty**

1. Ensuring an educational and training level with a high quality with which the student acquires academic knowledge, scientific and clinical applications.
2. Graduating a nursing specialist, an efficient practitioner in the nursing profession, in various nursing fields.
3. Preparing a highly qualified graduate, equipped with up-to-date knowledge of the computer world, biological sciences as genetics, communication, with a give and take disposition.
4. Rehabilitation of the student with some social and human sciences, to prepare him to interact and integrate in it with a sincere feeling of belonging, via his humane career, which needs continuous giving.
5. Providing students with the skills of self-learning and distance learning, and providing him with the culture of self-dependence in the process of renewing and developing, and innovation.
6. Providing students with the skills of critical thinking and problem solving in order to help in decision taking.

**رؤية الكلية**

مواجهة التحدي المتزايد في المنافسة العالمية في ظل المعطيات الجديدة مثل العولمة والتجارة والملكية الفكرية والعلم المضطرب والثورات العلمية المتلاحقة وذلك بإعداد الخريج الماهر على التعامل مع كل جديد من علوم الكمبيوتر والعلوم البيولوجية والصحة الحديثة في الهندسة الوراثية والجينيوي البيئي وتكنولوجيا الاتصالات.

**رسالة الكلية**

إعداد خريج متعدد عمليًا ومهنيًا ملء بأحدث الأساليب العلمية والتقنات الحديثة وقادرًا على تقديم رعاية ترطيبية ذات جودة عالية.

**أهداف الكلية**

1- ضمان مستوى تعليمي وتدريبي يجودية عالية يكتسب الطالب من خلاله المعرفة الأكاديمية والتطبيقات العلمية والإكلينيكية.
2- تحصين الخريجي تمريض وممارسه كي ينتمي إلى مهنة التمريض في تخصصات التمريض المختلفة.
3- إعداد خريج ملم باعرف العصر الحديث من علوم الكمبيوتر والعلوم البيولوجية والوراثة والجينات وعلوم الاتصالات يأخذه إليها.
4- تأهيل الطلاب ببعض العلوم الاجتماعية والإنسانية لإعدادهم للتفاعل مع المجتمع والاندماج فيه بشعور وطنى مخلص من خلال مهنة الإنسانية التي تحتاج إلى العطاء المستمر.
5- تزويد الطلاب بمبادرات تعليم الدروس والتعلم عن بعد وتطويره بنقاطة الاعتماد على النفس في التجديد والتطوير والاستمرار.
6- تزويد الطلاب بالمهارات التفكيرية النقدي وحل المشاكل حتى تساعد على اتخاذ القرار.
Establishment
It was established in 2006 according to the Presidential Decree Nuber: 2006/267.

Academic Degrees
The University Board, upon request of the Faculty of Nursing, the following degrees:
1- Bachelor Degree in Nursing
2- Degree of Diploma in Nursing.
3- Master’s Degree in Nursing.
4- Doctorate Degree in Nursing.
The period of study to obtain a Bachelor's Degree in Nursing is four years.
For a student to obtain any of the higher studies diplomas, he should be a holder of a bachelor's Degree in Nursing from one of the Egyptian Universities, or a Bachelor's Degree from other academic institutions accredited by the University, and should pursue studies for a period of at least one year, in accordance with the provisions of the Internal Regulations.
Faculty of Physical Education
Vision of the faculty

The Faculty of Physical Education seeks to support its students and graduates with the utmost standard of developed educational and training programs, to help its graduates also to compete with their counterparts in other equivalent faculties, both locally and regionally.

Message of the faculty

The message is preparing academically and professionally distinguished graduates, who are trained on the latest scientific and technical method. Also, to prepare graduates to work in the field of physical education, after possessing mental, and physical abilities, as well as stable personal skills and characteristics that go in line with the nature of the work to be done, and in harmony with the habits and customs of the society and environment. Part of its message also is to help graduates to compete with the other graduates in other equivalent colleges, and to foster the link between the curricula and the requirements of the labor market.

Objectives of the faculty

1. Developing the level of the faculty graduate through a technologically sophisticated educational system in an academic and cultural setting, supported by a modern system of academic research.
2. The Faculty aims at pioneering in the field of specialization from the training and practical perspective.
3. Developing the competences of the faculty members both locally and internationally.
4. Contributing in the service of the community, economically, socially and culturally.
5. Continuous updating and improvement of the curricula, so as to cope with the academic and technological developments.
6. Keeping in line with development in the labor market.

Establishment:

The Faculty was established according to the presidential decree number: 439 for the year 2008.
Faculty Of Engineering

Objectives of the Faculty

- Providing a developed model for students.
- Developing the growth and social uplift in the educational system through the industrial zones.
- Developing the growth and social uplift in the educational system.
- Developing the growth and social uplift in the educational system.
- Developing the growth and social uplift in the educational system.
- Developing the growth and social uplift in the educational system.

Mission of the Faculty

- Meeting the expectations of the industrial community.
- Keeping pace with the scientific development.
- Meeting the expectations of the industrial community.
- Keeping pace with the scientific development.
- Meeting the expectations of the industrial community.

Vision of the Faculty

- Keeping pace with the scientific development.
- Meeting the expectations of the industrial community.
- Keeping pace with the scientific development.
- Meeting the expectations of the industrial community.
- Keeping pace with the scientific development.
- Meeting the expectations of the industrial community.
**Establishment:**

The Faculty of Engineering is established in 2006 upon a presidential decree Number 2006/267.

**Academic Degrees:**

The university board, at the request of the Council of the Faculty of Engineering, or the Faculty of Engineering and Technology, or the Faculty of oil and Mining Engineering, or the Council of the Faculty of Electronic Engineering, grants the following scientific degrees and diplomas:

1. Bachelor’s Degree in Engineering from one of the Branches indicated in the internal Regulations.
2. Master’s Degree in Engineering.
3. Ph. D Degree in Engineering.

The period of study to obtain a bachelor’s Degree in Engineering is five years, including a preparatory year.
Faculty Of Computers and Information
Establishment

The decree of the Supreme Council of Universities was issued with approval to establish the Faculty of Computers and Information, in 26 July 2012 study started in the academic year 2012/2013. The Faculty of Computers and Information seeks to activate its possibilities to enrich the experiences of its students, depending on its academic experience of its faculty. It includes three major umbrella sections:
- Section of Education and Student Affairs.
- Section of Graduate Studies and Research.
- Section of Society Services, and Environment Development

Vision of the Faculty

The Faculty Computers and Information seeks to be a distinguished academic and scientific entity, with a cultural role through promoting the academic, scientific and research standard in the fields of technology and information. It also to be a powerful competent faculty in the local, regional and international fields.

Message of the Faculty

Providing the best setting for development through providing distinguished educational services, with the purpose of preparing a graduate who is capable of competence in the fields of science, and technology, with the purpose of strengthening the awareness of the members of the society of the importance of science, and scientific research.
The Faculty of Computer and Information, Benu-Suef University consists of four departments:
1. Department of Computer Sciences
2. Department of Information Systems
3. Department of Technology of Information
4. Department of Multimedia

Study in the faculty depends on the Credit hours

Objectives of the Faculty:

1. The Faculty tries its best to be one of the distinguished centers of progress in the field of academic sciences, and scientific research, to be able to help in improving the condition of the local society and the country at large.
2. Preparing a highly qualified graduate who satisfies the needs of the society, and able to compete in the international arena.
3. Implementing practical and scientific researches in all fields of the technology of information and computers, related to the development of the environment to realize sustained development.
4. Advanced programs for the BA and Graduate stages.
5. Developing the society through providing some services by the Units of private nature. These units provide consultations and scientific assistance for governmental bodies and private sector The Center of Technological and Information Center.
6. The faculty is interested also in organizing conferences and cultural symposiums, with the purpose of the contributing in raising the academic and cultural level of the individual of the society in the fields of technology of computers and information.
7. Opening channels of co-operation with government institutions, regional and international universities through interchanging professors and students, and carrying out scientific research, etc.

The objectives of the Faculty:

- To prepare graduates with the ability to work in the field of information technology and to use the modern methods and technologies in their work.
- To develop the scientific and technical skills of the students to enable them to work in the field of information technology.
- To prepare graduates with the ability to work in the field of information technology and to use the modern methods and technologies in their work.
- To develop the scientific and technical skills of the students to enable them to work in the field of information technology.
- To prepare graduates with the ability to work in the field of information technology and to use the modern methods and technologies in their work.
- To develop the scientific and technical skills of the students to enable them to work in the field of information technology.
- To prepare graduates with the ability to work in the field of information technology and to use the modern methods and technologies in their work.
- To develop the scientific and technical skills of the students to enable them to work in the field of information technology.
- To prepare graduates with the ability to work in the field of information technology and to use the modern methods and technologies in their work.
- To develop the scientific and technical skills of the students to enable them to work in the field of information technology.
- To prepare graduates with the ability to work in the field of information technology and to use the modern methods and technologies in their work.
- To develop the scientific and technical skills of the students to enable them to work in the field of information technology.
كلية طب الأسنان
Faculty of Dentistry

Be proud ..... You are in B.S.U
Vision of the faculty

The Faculty of Dentistry in Beni-Suef University seeks to pioneer in the field of dentistry, and to occupy an advanced place among the local and international faculties of dentistry.

Message of the faculty

The Faculty of Dentistry - Beni-Suef University works to prepare highly academically qualified cadres in the field of Dentistry, scientifically and practically distinguished, and capable of competence as well as coping with the up-to-dates in modern science, so as to satisfy the needs of labor market, as well as carrying out scientific researches, and obtaining the required skills in treating dental oral diseases.

Objectives of the faculty

- To graduate a distinguished and qualified dentist to work in Egypt and outside.
- To provide a distinguished service in the field of oral and dental treatment especially to the people of Beni-Suef and the other Governorates of Upper Egypt.
- Developing the scientific capabilities in the field of dentistry through the workshops and continuous training courses.

The Decree of the President of the Council of Ministers Number: 200 for the year 2013 in March 2013 amending some of the provisions of the Regulations to the law regulating the Universities to add the Faculty of Dentistry of Beni-Suef University.

Departments of the Faculty

1- Department of the Biology of the Mouth and Teeth.
2- Department of the Properties of Dental Biometrics.
3- Department of the Pathology of the Mouth.
4- Department of Prosthodontics.
5- Department of Crowns and Bridges.
6- Department of Conservative Dentistry.
7- Department of Oral Surgery and Anesthesia.
8- Department of Oral Medicine and Gum Disease Diagnosis.
9- Department of Child Dentistry and Public Health.
10- Department of Orthodontics.
11- Department of Endodontics.
12- Department of Mouth Rays.

نشأة الكلية:

صدر قرار رئيس مجلس الوزراء رقم 200 لسنة 2013 في مارس 2013 بتعديل بعض أحكام اللائحة التنفيذية لقانون تنظيم الجامعات بإضافة كلية طب الأسنان لجامعة بني سويف.

اقسام الحكليت

1- قسم بيولوجيا الفم والأسنان
2- قسم خواص المواد الحيوية لطب الأسنان
3- قسم باثولوجي الفم
4- قسم الاستعاضة الصناعية لطب الأسنان
5- قسم التبيجان والجسور
6- قسم العلاج التحفظي للأسنان
7- قسم جراحة الفم والتخدير
8- قسم طب الفم وأمراض اللثة والتشخيص
9- قسم طب أسنان الأطفال والصحة العامة
10- قسم تقويم الأسنان
11- قسم علاج الجذور
12- قسم أشعة الفم
Establishment Of The Faculty

Beni-Suef University is the only Egyptian University to establish the first university college that is specialized in post-graduate studies; it is the Faculty of Graduate Studies and Advanced Technological Sciences. This faculty is distinguished by the fact that it is the first and only faculty in Egypt, the Arab World and Africa, which grants credited Diploma, Master, and Doctorate degrees in the field of Nano-Technology, biotechnology, the sciences of environment and industrial development.

The curricula of the faculty are prepared in accordance with European and American programs in these fields, through benefiting from foreign expertise. The Faculty is equipped with the most modern laboratory equipment to provide the distinguished scientific services. The Faculty follows the Credit hours system. The courses are taught by highly qualified Egyptian and international professors from the Faculties of Science, Pharmacy, Medicine, and Engineering.

We all look forward to see that The Faculty of Graduate Studies and Advanced Technological Sciences, has become a pioneering faculty in the field of education and scientific research in the fields of advanced and practical sciences, as well as a center of distinguish, locally, regionally as well as internationally.

Vision of the faculty

Beni-Suef University hopes that The Faculty of Higher Studies and Advanced Technological Sciences a distinguished academic school in the field of carrying out advanced scientific research in co-operation between universities and centers of research in the local, regional and international basis. It also contributes in solving the industrial problems, and achieving sustained development.

Message of the faculty

Training research and professional cadres specialized and qualified to meet the needs of work, and contribute in studying the industrial problems of local, regional, and international nature via scientific and practical researches, and in working towards sustained development with the purpose to perpetualize resources, and preparing the just ways to measure its rates, to cope with the international criteria, building companies with other institutions concerned with the academic research.
Third: The Strategic Purposes

* Extending practical researches in the new fields, and the industrial scientific advices which depend on advanced sciences.
* Offering highly qualified educational and training services that help in encouraging the competitive abilities of the graduate students in the labor market, enlarging the scope of e-learning, and students' self-learning.
* Increasing the effectiveness of programs and educational curricula to achieve professional, international, and academic standards through the collaboration with the beneficiaries in the labor market, on the local, Arab and African levels.
* Encouraging excellence in the students' performance, faculty and staff with a focus on the deployment of the principles and ethics of scientific research.
* Rehabilitation of the Faculty for obtaining the academic accreditation from the National, regional and global bodies.

Third: The Strategic Purposes

• التوسع في البحوث التطبيقية في المجالات الجديدة والاستشارات العلمية الصناعيَّة التي تعتمد على العلوم المتقدمة.
• توفير خدمات تعليمية وتدريبية ذات جودة عالية تزيد من قدرات طلاب الدورات العليا التنافسية في سوق العمل والتوسع في استخدام التعليم الإلكتروني والتعليم الذاتي لدى الطلاب.
• زيادة فاعلية البرامج والمناهج التعليمية لكي تحقق المعايير المهنيَّة والعالمية وذلك بالتعاون مع الجهات المستفيدة في سوق العمل على المستوى المحلي والعربي والأفريقي.
• تشجيع التميز في الأداء لدى الطلاب وهيئة التدريس والعمال مع التركيز على نشر مبادئ وإخلاصات البحث العلمي.
• تأهيل الكلية لاعتماد الأكاديمي من الهيئات القومية والإقليمية والعالمية.
• إنشاء العمل المركزي لتطوير البيئة التعليمية والتكنولوجية والبنية التحتية التي تساعد على التعليم وأجراء البحوث.
Faculty of Economic Studies and Political Sciences
Vision of the Faculty:
The Faculty of Physiotherapy in Beni-Suef University seeks to pioneer in excellence both regionally, and internationally.

Message of the Faculty:

The Sport City

Beni-Suef University has approved the establishment of a sport city inside its campus before the 25 January Revolution, but work in it has been suspended for lack of funding previously promised. The President of the University has done his utmost to provide more than 36 million pounds to carry out the construction works that started in 2011 from the surplus of the Ministry of Finance at that time (digging for the Stadium, the Olympic Pool, and the Covered Hall.)
There were huge efforts that have been exerted, and crowned with success in 2013 when the Cabinet of Ministers approved the inclusion of the Olympic Pool within a bill of assignation number 13 for the year 1998, and that the ministry of Planning has provided the necessary funding for constructing the Olympic Pool.

وقد تم بذل جهود ضخمة توجت بنجاح في عام 2013 حينما وافق مجلس الوزراء على إدخال حمام السباحة الأوليمبي ضمن أمر اسناد رقم 13 لسنة 1998 وتوفير وزارة التخطيط الأموال اللازمة للانتهاء من حمام السباحة الأوليمبي.
وقد تم الحصول على موافقة وزارة الإسكان وهيئة المجتمعات العمرانية الجديدة ل كافة المخططات الإنشائية للمدينة الرياضية والتراخيص اللازمة. وقد تم افتتاح حمام السباحة الأوليمبي في عام 2015. وقد أنشأت الجامعة الملعب الخماسي بعنوان ملعب ثورة 25 يناير في حرم الجامعة، كما أنشأت 12 ملعب مكشوف في أرض الجامعة بشرق النيل. مدينة بني سويف الجديدة بعنوان ملاعب ثورة 30 يونيو (الجادة، السالة، اليد...). فضلاً عن ملاعب الإسكواش والهوكي.

The approval of The Ministry of Housing and The Authority of the New Urban Communities to have all the blueprints of the Sport City and the authorizations required. The Olympic pool has been opened in 2010. The University has also established the quintet playground under the title of “The 10th January Revolution Playground”. The University also established 15 open playgrounds in the land of the university east of the Nile — the City of New Beni-Suef under the title of The 4 Revolution Playgrounds (Volleyball, Basketball, Handball...). In addition to The Squash and Hockey playgrounds.
